Education

Indian Institute of Information Technology, Lucknow Jul. 2023 – Jun. 2027
Bachelor of Technology in Information Technology *CGPA: 8.0/10.0*
- Relevant Coursework: Data Structures & Algorithms, Database Systems, Compiler Design

Tata Dav School, Dhanbad Jun. 2019 – Mar. 2021
Senior Secondary School (12th) *88.4%*

De Nobili School, FRI, Dhanbad Feb. 2008 – Jan. 2019
Secondary School (10th) *94%*

Skills

Languages: C/C++, Java, Python, JavaScript, SQL, HTML, CSS
Frameworks/Libraries: React, Node.js, Express.js, Bootstrap, Tailwind CSS, Flask, Pandas, LightGBM
Databases & Tools: MySQL, MongoDB, AWS, Git, GitHub, VS Code, Ubuntu
Key Skills: Data Structures & Algorithms, REST APIs, API Integration, AI/ML, LLM Integration

Experience

GUI Data Annotator (Ubuntu Desktop) Remote
Turing *Jan. 2026 – Feb. 2026*
- Contributed to the refinement of multimodal AI training datasets by accurately reconstructing GUI task trajectories within a Linux/Ubuntu environment.
- Achieved a perfect **5/5 rating** in Throughput, Availability, and Communication while maintaining **100% attendance** during critical project sprints.
- Successfully delivered multiple complex task batches with a **0% rejection rate**, ensuring high-fidelity data ingestion for frontier AI models.
- Generated precise PyAutoGUI-style action annotations (JSON) and screenshots for complex workflows using tools like VS Code, GIMP, and LibreOffice.

Projects

MediEduMatch | React, Node.js, Bootstrap, Java, Spring Boot, MySQL *Dec. 2024*
- Led a 4-member team; built Spring Boot REST APIs matching NEET ranks to 1,000+ college cutoffs in MySQL.
- Developed the React frontend and JWT login with OTP email verification (JavaMail).

Amazon ML Challenge – Entity Resolution | Python, Pandas, LightGBM, AWS *Sep. 2026*
- Engineered a CPU-only pipeline matching 10.3M noisy business records to 2.2M entities, no GPU or pretrained models.
- Cut candidates to about 6 per entity (98.5% recall) with inverted-index blocking and a LightGBM pruner.
- Reached 0.985 macro F0.5 on the public leaderboard with a 3-model LightGBM ensemble on about 140 similarity features.

Apply Links Telegram Bot | Python, Telethon, Groq LLM API, Google Sheets, Flask *Jun. 2025*
- Created a Telegram bot for 100+ subscribers that pulls the last 48 hours of posts from 20+ job channels via Telethon.
- Filtered posts with an LLM (Groq API, gpt-oss-120b, JSON mode) using batch-year and fresher/intern eligibility rules.
- Stored users, batches and admin-approved links in Google Sheets (gspread) and sent verified links per batch.
- Deployed on a Flask webhook with async handlers for batch selection, user job submissions and admin contact.

Social Media App | EJS, CSS, RESTful APIs, MySQL, Imgur API *Jan. 2024*
- Implemented 5 CRUD endpoints with server-rendered EJS templates to create, edit and delete photo posts.
- Crafted responsive layouts for five view-port sizes using EJS and CSS, achieving zero cross-browser layout errors.
- Integrated MySQL with the Imgur API to store and serve image URLs for 500 sample posts generated with Faker.
- Executed end-to-end tests on the generated posts to validate data integrity and UI consistency.

Extracurricular Activities & Achievements

- Placed in the **Top 1,000 of 32,000+ teams** in **Amazon ML Challenge 2026** (entity resolution); peak public rank **416**.
- Achieved a peak **CodeChef rating of 1,680 (3-star)**, improving by 200 points in under six months.
- Attained a maximum **Codeforces rating of 1,424 (Specialist)**, ranking in the top 15% of 100,000+ active users.
- Ranked **141st** globally among 1,954 participants in **CodeChef Starters 172 Div.2** on 5th Feb 2025.
- Secured **55th** place out of 2,702 participants in **CodeChef Starters 167 Div.3** on 1st Jan 2025.
- Placed **1,294th** among 19,943 contestants in **Codeforces Round 1002 (Div. 2)** on 2nd Feb 2025.
- Placed **1,588th** out of 13,078 contestants in **Codeforces Round 995 (Div. 3)** on 22nd Dec 2024.
- **80+ contests and 900+ problems solved** on major coding platforms.

Certifications

- Earned the **Microsoft Certified: SQL AI Developer Associate** for AI-integrated database solutions.
- National Semi-Finalist in **Flipkart Grid 7.0**.
- Mastered 17 advanced graph problems at **GraphTheory Programming Camp** organized by AlgoUniversity.
